# **Potassium Chlorate**

### **Product Description**

Product Name: Recommended Use: Synonyms: Distributor:

Section 1

Potassium Chlorate Science education applications Chlorate of Potash Carolina Biological Supply Company 2700 York Road, Burlington, NC 27215 1-800-227-1150 800-227-1150 (8am-5pm (ET) M-F) 800-424-9300 (Transportation Spill Response 24 hours)

Chemical Information: Chemtrec:

### **Hazard Identification**

Classification of the chemical in accordance with paragraph (d) of §1910.1200;

Section 2

May cause fire or explosion; strong oxidizer. Harmful if swallowed or if inhaled. Causes eye irritation. Toxic to aquatic life.

#### **GHS Classification:**

Oxidizing Solid Category 1, Serious Eye Damage/Eye Irritation Category 2B, Hazardous to the aquatic environment - Acute Category 2, Skin Corrosion/Irritation Category 3, Acute Toxicity - Inhalation Dust / Mist Category 4, Acute Toxicity - Oral Category 4, Acute Toxicity - Dermal Category 5

**Other Safety Precautions:** 

In case of major fire and large quantities: Evacuate area. Fight fire remotely due to the risk of explosion.

| Extinguishing Media:                  |   | Use alcohol foam, carbon dioxide, or material.  | water spray wh            | nen fighting fires involvir | ng this |  |
| Fire Fighting Methods and Protection: |   | Firefighters should wear full protective equipment and NIOSH approved self-contained breathing apparatus. |                           |                             |         |  |
| Fire and/or Explosion Hazards:        |   | Powerful oxidizer. Fire or excessive heat may produce hazardous decomposition                             |                           |                             |         |  |

Hydrogen chloride, Potassium Oxide

products.

**Hazardous Combustion Products:** 

| Section 6   | Spill or Leak Procedures   |
|---|--|
| Steps to Take in Case Material Is<br>Released or Spilled: | Exposure to the spilled material may be severely irritating or toxic. Follow personal protective equipment recommendations found in Section 8 of this SDS. Personal protective equipment needs must be evaluated based on information provided on this sheet and the special circumstances created by the spill including; the material spilled, the quantity of the spill, the area in which the spill occurred, and the expertise of employees in the area responding to the spill. Never exceed any occupational exposure limits. Isolate area. Keep unnecessary personnel away. Follow personal protective equipment recommendations found in Section 8 of this MSDS. Personal protective equipment needs must be evaluated based on information provided on this sheet and the special circumstances created by the spill including; the material spilled, the quantity of the spill, the area in which the spill occurred, and the special circumstances created by the spill including; the material spilled, the quantity of the spill, the area in which the spill occurred, and the expertise of employees in the area responding to the spill. Never exceed any occupational exposure. Avoid the generation of dusts during clean-up. |
| Environmental Precautions:                                | Do not flush to sewer. Avoid runoff into storm sewers and ditches that lead to waterways.<br>Prevent the spread of any spill to minimize harm to human health and the environment if safe<br>to do so. Wear complete and proper personal protective equipment following the<br>recommendation of Section 8 at a minimum. Dike with suitable absorbent material like<br>granulated clay. Gather and store in a sealed container pending a waste disposal evaluation.  |

#### **Section 7**

## Handling and Storage

 Handling:
 Keep away from heat/sparks/open flames/hot surfaces. – No smoking. Keep/Store away from

 clothing/.../combustible materials. Take any precaution to avoid mixing with combustibles. Avoid breathing

 dust/fume/gas/mist/vapors/spray. Wash thoroughly after handling. Do no eat, drink or smoke when using this

 product. Use only outdoors or in a well-ventilated area. Avoid release to the environment. Wear protective

 gloves/protective clothing/eye protection/face protection. Wear fire/flame resistant/retardant clothing. Keep

 Storage:
 Avoid creating and inhaling dust.

# Storage Code:

de: White - Corrosive. Separate acids from bases; separate oxidizer acids from organic acids.

| Section 8                                   | <b>Protection</b>  | nformation    |          |                  |  |

| No data available                           | N/A  | N/A           | N/A      | N/A              |  |
| Control Parameters<br>Engineering Measures: | No exposure limits exist for the constituents of this product. General room ventilation might be required to maintain operator comfort under normal conditions of use. Use   |               |          |                  |  |
|   | process enclosures, local exhaust ventilation, or other engineering controls to control<br>airborne levels below recommended exposure limits   |               |          |                  |  |
| Personal Protective Equipment (PPE):        | Lab coat, apron, eye w   |               |          |                  |  |
| Respiratory Protection:                     | Respiratory protection will be required when handling this product. Use respirators only if ventilation cannot be used to eliminate symptoms or reduce the exposure to below acceptable levels. Respiratory protection may be required in addition to ventilation depending upon conditions of use.  |               |          |                  |  |
| Respirator Type(s):                         | NIOSH approved full-face respirator as a minimum.  |               |          |                  |  |
| Eye Protection:                             | Wear chemical splash goggles when handling this product. Have an eye wash station available.   |               |          | eye wash station |  |
| Skin Protection:                            | Avoid skin contact by wearing chemically resistant gloves, an apron and other protective equipment depending upon conditions of use. Inspect gloves for chemical break-through and replace at regular intervals. Clean protective equipment regularly. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work. |               |          |                  |  |
| Gloves:                                     | Nitrile  |               |          |                  |  |
